

ANAHITA

P.I.G.GOVERNMENT COLLEGE FOR WOMEN, JIND

NAAC ACCREDITED 'GRADE-B'

2022-2023

 **Near Civil Hospital, Gohana
Road, Jind, (Hr-126102)
Affiliated to C.R.S.U.Jind**

 **01681-249581**

 **gcwjind@yahoo.com**

MESSAGE FROM PRINCIPAL'S DESK

Dear Students,

First of all, I congratulate all those students whose articles have been published in the present issue of our **College E-Magazine "ANAHITA" (2022-23)**. I wish that those students who could not write due to underestimating their hidden talents should try next time, I also congratulate the learned staff for their sincere co-operation and support in bringing out this e-magazine. A college magazine is always informative and educative. Writing is a skill which can be developed by the reading. Books are fountain of inspiration. The habit of reading develops vocabulary, expression, ideas and reasoning power. So, be voracious readers. Make it a point to visit library during your vacant periods to explore the world of knowledge. Gandhiji once said that one who has appreciated the value of studies is a student all the life.

Dear students, just imagine the time when you will finally have the degree in your hands. What you want to achieve and learn for that time should be very much clear to you in the present. Student's life is the formative period of one's life; the most suitable and appropriate time to shape personality. So you should **Dream Big, Think Big and Achieve Big**. Goals are an integral part of our lives. Interests coupled with deep desire to acquire knowledge are essential part of success. Always remember that every second in life is valuable and also numbered and what is lost is lost forever. Time management for

students is supposed to be one of the most important yet most difficult skill to be learnt during the college years.

The aim of every student should be to go beyond academics. There are number of curricular, co-curricular and extra-curricular activities going on in the college. Be a part of these activities for your overall development and prove real asset to the society.

Be eco-friendly and avoid littering waste papers, bottles, etc. here and there.

I pray to Goddess Sarswati to take you on the path of glory, knowledge, reason, hope and light.

I extend my best wishes for a bright and rewarding future for all my students!

Smt. VEENA KUMARI

PRINCIPAL

PIG GCW JIND

MESSAGE FROM CHIEF EDITOR

The ability to read, write and analyze; the confidence to stand up and demand justice and equality; the qualifications and connections to get your foot in the door and take your seat at the table - all of that starts with education.

Michelle Obama

It gives me immense pleasure that our esteemed institution has been striving hard for the holistic development of the girl students and transforming them into responsible and capable citizens. Our college **E-Magazine ANAHITA 2022-23** provides a platform to the students to exhibit their hidden talent and groom their holistic personality. The colourful pages of ANAHITA witness the efforts of the dedicated faculty members in enhancing their critical, analytical & life skills.

The marvelous performance and achievements of the students in curricular, co-curricular and sports activities have been beautifully exhibited on the pages of **E-Magazine ANAHITA 2022-23** by the students' technical team and the members of editorial board. It also provides a platform to the young budding authors to pen their ideas and foster their literary tastes & be an inspiration to the other students.

I am well pleased with the working abilities of the **Student Technical Team Ritika and Rhythm** who tried their best and added colors to present the activities in the best way possible.

I am very grateful to all the members of the editorial board, student section editors who tried their best to present the hard work of the students, teachers and organizing committee. I express my heartfelt thanks for their support in making the task easy and comfortable.

I am very grateful to our Principal & college fraternity who work hard incessantly to bring out the creativity of the students throughout the year and make the pages of **ANAHITA** colourful with the performance and achievements of the students.

Editor-in- Chief

Dr. Amarjeet Kaur

MESSAGE FROM SUB EDITOR

It gives me immense pleasure to put forward a few words in the annual magazine **Anahita 2022-23**. It gives a platform to the students for a reflection of their creative abilities. The Anahita is nothing but a glimpse of the peerless skills of our students.

I appreciate the hard work and devotion of the Editorial Board and students.

ARTICLES

EXPERIENCE OF STUDENT TECH TEAM

"Everyone has talent, but ability takes hard work." This was a wonderful opportunity for us to work as a magazine tech team in our college. We tried to do it perfectly and made it easy to compile all the stuff and ended up getting such a beautiful output. Our respected teacher Mrs. Amarjeet Kaur ma'am always motivated us to get the best out of us. She always guides us in this work and corrects us where we are wrong.

As the heart of College Magazine is the team of student journalists. Our goal is to create an incredible guide for our college readers. We accomplish this goal by equipping our technical skills to tackle challenging subjects and ultimately uncover their voices. Through our technical work of magazine, we both learn the ins and outs of designing for an online publication.

Being a tech team at College magazine has helped us get our foot in the door with something we have been passionate about since we were a kid. When we joined the tech team at our college, we had little idea of the incredible journey that awaited us. As with any team, we encountered numerous challenges. One of the initial hurdles was integrating our diverse skill sets and aligning our visions. However, through effective communication and collaboration, we transformed these challenges into learning opportunities. We sharpened our technical expertise, expanded our problem-solving skills, and honed our ability to work cohesively as a team.

Being a tech team in a college magazine is an exhilarating and fulfilling experience for us. It offers a unique platform to harness our technical skills and foster innovation.

आज का युवा और बचत

“जो बचत की आदत का मजाक बनाते है, मुसीबत में दूसरो के सामने हाथ फैलाते है।“

बचत का मतलब होता है अपने उपभोग में कमी करना। आज का समय भौतिकवाद का समय है। बचत करने की आदत लोगों में धीरे-धीरे खत्म होती जा रही है। भौतिकवाद का सबसे ज्यादा प्रभाव युवाओं पर पड़ा है। वो जीवन में बचत को महत्व देना भूलते जा रहे हैं। युवाओं ने भविष्य के लिए सोचना बंद कर दिया है। जब युवा होते है तो बचत का सही मूल्य समझ नहीं पाते। किसी भी तूफान से बचने के लिए अगर आपके पास संसाधन है तो आप आसानी से उसका सामना कर सकते हैं। यही बात युवाओं को समझने की आवश्यकता है। अगर आने वाले समय में उन पर किसी प्रकार की कोई वित्तीय समस्या आती है तो वो अपनी बचत का प्रयोग करके उसका सामना कर सकते है। अर्थशास्त्र के अनुसार दो स्थितियां हो सकती है -एक हमारी इच्छा होती है और दूसरी हमारी आवश्यकताएँ। आवश्यकताएँ कुछ सीमा तक पूरी की जा सकती है और इच्छाओं को पूरा करना संभव नहीं है। एक इच्छा पूरी होते ही दूसरी इच्छा उसका स्थान ले लेती है। युवा सिर्फ अपनी इच्छाओं को पूरा करने का प्रयास करते है जो संभव नहीं है। उदाहरण के लिए मोबाईल फोन आज के समय में हमारी जरूरत है लेकिन उस पर लाखों रूपये खर्च करना युवाओं की इच्छा है। युवाओं को बचत के महत्व को समझना चाहिए। भारत जैसे अल्पविकसित देश में इसका महत्व और भी ज्यादा बढ़ जाता है क्योंकि इसी बचत पर हमारे भविष्य का निवेश और आय निर्भर करती है जो हमारे देश के आर्थिक विकास को बढ़ा सकती है। युवाओं को अपने भविष्य के बारे में भी सोचना चाहिए और बचत करनी चाहिए। ब्रांडेड वस्तुओं पर अपनी सारी बचत खत्म करना सबसे बड़ी समस्या है। इससे जो आय प्रजनन होता है उसका फायदा भी सिर्फ बहुराष्ट्रीय कम्पनियों को ही मिलता है। अपने देश में उत्पादित वस्तुओं का प्रयोग करके हम अपने देश के उद्दमियों, मजदूरों, दूकानदारों और निवेशकों की आय को बढ़ा सकते है। इसीलिए “स्वदेशी अपनाओ देश बचाओ” के महत्व को समझना चाहिए और युवा इसमें महत्वपूर्ण भूमिका निभा सकते हैं।

फिजूल खर्चों को दो लगाम, जीवन को दो नया आयाम।

डा० प्रतिभा,
सहायक प्राध्यापिका
अर्थशास्त्र विभाग

FAILURE IS THE STEPPING STONE TO SUCCESS

Our greatest glory is not in never failing, but rising up every time we fail. Failure is the stepping stone to success. It is learning and strengthening your personal skills which are important to success. In order to succeed, you must embrace failure and use it as a stepping stone. Success and failure go hand in hand. On the one hand success gives us a sense of joy and pride and on the other, failure is one of the toughest things to deal with and happens frequently in life. We often fear failure because it affects our ego and sense of identity in relation to the world around us. Failure can make us feel ,ineffective, inadequate and isolated. But this stage is temporary, life is a long journey and in the course of life and career one has to face many ups and downs. Most people fall into depression or lose hope when they face failure. But as Nelson Mandela says, "Do not judge me by my success, judge me by how many times I fell down and got back up again.

Failure like success is a part of life. A person who has faced failure in life will always realize the value of success. A successful person who hasn't faced failure will never know what hard work and perseverance mean and therefore he/ she will not able to maintain that success. So at the end I want to say always remember. "If God is shaking your nest, it means he is preparing you to fly." So dear readers "Never give up and never stop learning"

Dr. Suman Devi

Assistant Professor

**Dept. of Sociology,
G.C.W. Jind**

MIRACLE OF ENCOURAGING POSITIVE WORDS...

Words of encouragement are those that foster self-respect, confidence and independence. We all have emotional tanks inside us. The encouraging words fill that tank with power fuel. Encouragement often involves bursting a confidence bubble. Words of encouragement raise one's confidence level and that confidence level works a lot to achieve everything in life. Everyone is doing their best in this world and sometimes, a kindly word of encouragement can help others realize that they're not alone. Moreover, encouragement is a way of recognizing the good in others, and seeking more of it. We all need some encouraging words and inspiration to pull yourself out of the doldrums and reframe our thoughts. Behind every successful person there is someone who motivates the person with encouraging words.

Once a small child came home from school and gave a paper to his mother. He told her, "Mother, my teacher gave this paper to me and told me only you are to read it. What does it say?" Her eyes welled with tears as she read the letter out loud to her child- "Your son is a genius. This school is too small for him and doesn't have good enough teachers to train him. Please teach him yourself." His mother did just that, until she fell ill and passed away. After many years, he became one of the greatest inventors of the century. One day he was going through some of her things and found the folded letter under her clothes. This is the letter which his old teacher wrote to his Mother that day. He opened it. The message written on the letter was "Your son is mentally deficient. We cannot let him attend our school anymore. He is expelled." He became emotional after reading it and thought that when one door closes another door opens. That child was Thomas Alva Edison who invented the bulb and removed the whole universe from darkness. Thomas Alva Edison wrote in his diary: "Thomas Alva Edison was a mentally deficient child whose mother turned him into the genius of the century." The positive words of encouragement of his mother work miracles for the little child. Some people come in our life as blessings while others as lessons. But the positive words of encouragement work miracles for everyone and every time.

When we encourage others, it boosts their self-esteem, enhances their self-confidence, makes them work harder, lifts their spirits and makes them successful in their endeavours. Encouragement goes straight to the heart and is always available. We never know that only one word of encouragement can change a life to what extent.

Challenges and difficulties are a part of life. Who doesn't go through failures, setbacks, and challenges? We all do. Words of encouragement can often help you get out of your rut. Only these words motivate children to pursue their dreams. These words have power to affect not only children, but also the persons of all groups. Words can have a powerful impact on your mindset. A positive word of encouragement can help change someone's entire life.

Dr. Himanshu

Assistant Professor

RE- IMAGINED OURSELVES

Let's try to re-imagine ourselves through the lens of Indian values. Indian culture advocates universal human values. As M.K. Naik says, "Though the humanitarian ideal is universal, it is perhaps in Indian culture that it has attained its fullest glory." We should always learn that we are sent here in this world to perform the assigned roles. Human being is himself responsible for his own journey of karma. Every action carries a relevant responsibility of bearing its consequences. If a person accepts the consequence of his action happily, then there remains no pain or suffering. The degeneration is a part of collective efforts from our side; we all are responsible to make this society without humanity. In India, the number of rape and assault cases, honour killing, acid attack, has been increasing day by day. Liberation does not imply a rejection of one's social obligations. Humanity is in danger as a result of the potential demise of marriage as a social institution.

The ultimate goal of life is happiness. Happiness is the key of life and to get this key, it is mandatory to follow the disciplined path of values. The ultimate goal of human life can only be achieved when we have control over our senses. Modern men and women are facing lack of understanding, faith, devotion and respect for each other. In spite of having so much opulence, there is a starvation of love and peace. We have to return to the path of Dharma. The self exists in every aspect of nature even in animals, stars, plants etc.

A person can find his place in this universe by giving respect to others. The need of the hour is to revitalize the power of knowledge and follow the path of Bhagwad Gita to save the humanity. This universe is bound with the laws of karma. The truth of life is exposed in terms of the actions and their results. The root cause of the sufferings is desire. The desire arises from the instinct of need. A desire can never vanish even after its fulfillment. Pacifying a desire promotes to further more desires and there creates a chain reaction. Indulgence cannot pacify a desire and control of desire is a mandatory condition for healthy survival. We are not just bodies. Human being is composite of spirit, mind and body. Our senses cannot work properly in the absence of spiritual practice. Today, the renewal of ethical standard has become the need of the hour because humanity is facing a period of transition. In this modern era, emotions and sensations have been commercialized. There is a great need to introduce an era of self realization to envision new norms and values out of the old one. Science and spirituality should be combined to establish a new modern world of harmony. The ancient Indian wisdom should be combined

with modern creative ideas so that human beings may get rid of their problems and realize the true consciousness. There is a great need to enhance the spiritual growth so that social and psychological unrest could be minimized.

Dept. of English

The Power of Contemporary Literature to Break Down Mental Health Stigma

Mental health issues have long been shrouded in stigma and misunderstanding, leading many people to suffer in silence. However, contemporary literature is playing an increasingly important role in breaking down these barriers and promoting greater awareness and empathy for those struggling with mental health challenges.

The representation of mental health in contemporary literature has become more prevalent in recent years, reflecting a growing awareness of these issues in society. Books like "Eleanor Oliphant is Completely Fine" by Gail Honeyman, "The Bell Jar" by Sylvia Plath, and "The Perks of Being a Wallflower" by Stephen Chbosky tackle the complexities of mental health in a nuanced and sensitive way. By portraying characters struggling with mental health issues, these books provide a window into the experiences of those dealing with these challenges.

One of the most significant impacts of contemporary literature's representation of mental health is its ability to increase awareness and empathy. Reading about characters who struggle with mental health issues can help readers gain a deeper understanding of what it's like to live with these challenges. This can lead to greater empathy and compassion for those with mental health issues, as well as a reduction in the stigma surrounding these conditions. Contemporary literature can also offer readers a sense of validation and connection. Mental health issues can be isolating, but seeing characters in books who experience similar struggles can make readers feel less alone. This sense of connection can be especially important for those who may not have access to mental health resources or support systems in their own lives.

At the same time, contemporary literature can challenge readers' preconceived notions about mental health. By presenting complex characters who struggle with mental health issues, contemporary literature can disrupt stereotypes and challenge harmful attitudes. This can encourage readers to reflect on their own beliefs and biases and, in some cases, change them.

For example, "The Bell Jar" by Sylvia Plath is a classic novel that portrays a young woman's descent into mental illness and her struggle to recover. The novel challenges the idea that mental illness is a personal failing or a weakness, instead portraying it as a complex and multi-faceted condition that requires understanding and support. Similarly, "The Perks of Being a Wallflower" by Stephen Chbosky portrays a teenage boy's struggle with depression and trauma, highlighting the importance of seeking help and the power of connection and empathy.

In conclusion, the representation of mental health in contemporary literature has the power to break down stigma and promote greater understanding and empathy. By portraying complex characters who struggle with mental health issues, contemporary literature can challenge stereotypes and offer readers a sense of validation and connection. This can lead to a more compassionate and supportive society that values and prioritizes mental health.

~ Ritika B.A.III (English Hons.)R.N.01

LIMITS

I just wanna go,
Go beyond the limits of the world and even of the sky.
Make my own beautiful place
Where I can dance, sing and can even fly
In any way I want, because nobody gonna judge
Where I can cry out loud and can even shout

But here in this messy world
I just find myself as a stupid spirit filled with darkness
Having unrealistic smile and far from fake people's sharpness
Everytime making my own creations but,
at the end of the day having no destination
Always hiding the pain and despair in the eyes
Just wanna break every milestone and fly even higher
Just wanna cross the limits of the world and even of the sky.

~Khushi

Roll No. 68

GRATITUDE

I am Thankful.

For the skies Azure that smiles everyday.
 And for tiny little for a dancing on pathway.
 For the Little Lovely Laughter of the Mates.
 Or for the Sunlight reflecting the Wooden Slates.

I am Grateful for,
 Being. A Listener of the melodies of Nightingale,
 Being a dreamer of the Sweet Shiny fairy tale,
 Being an admirer of those beautiful beaches,
 Being a wanderer in the wood without Crutches.

I really Appreciate ,
 Hurdles of wood that made me a Explorer,
 Problems of days that made me a learner,
 Hatred that made me Value the moment Love,
 Misery of Gloom that made me value moment Dove,

I am Thankful to,
 Reason behind the glory childhood, my Grand Dad. Mum.
 My mum & dad is comfort, my bestest Chum,
 Teacher who told what is Right and bright,
 Cousins & family, who made Life, a Scenic sight.

I Really Appreciate,
 The Clock on empty wall, that reads Stories of Time,
 A Window, exclaimed significance of Sometime.
 Table fan that told me to stay calm & curled,
 Mirror that made me to face world.

I was Thankful and I always will,
 For this Life, a better life of my will,
 I'll also be grateful to the Death, a life ending,
 That made me realise the Worth of Living.

LAP OF NATURE

"Nature never did betray

The heart that love her"

Nature, in the broadest sense, is the physical world or universe "nature" can refer to the phenomena of the physical world, and also to life in general. The study of nature is a large, if not the only part of science. Although humans are part of nature, human activity is often understood as a separate category from other natural phenomena if everyone loves nature, then nature also loves him and he learns something good or the other. William Wordsworth (1770-1850) is one of the greatest British romantic poet as well as a poet of nature. He loved to live in the lap of nature, he also wrote poems on nature. He is a worshipper of nature; actually people now a days are away from nature. But, Nature gives us peace and lots of knowledge And Wordsworth believed that we can learn more and more moral evil and good for nature than from all the philosophies. In his eyes,

"Nature is a teacher whose wisdom we can learn,

And without which any human life vain and incomplete".

He believed in the education of man by nature. In my own words, Nature is the source of purest thought. Acc.to Wordsworth spiritual power lives and breathes through all the works of nature. According to the scientific theory Nature is that natural and physical world that surrounds us and makes life possible on earth. Nature is the heart of the earth. Nature heals us we have a strong bond and emotional connection with nature. That's why we like to live in the lap of nature, we get peace in its lap. We learn everything from nature. William Wordsworth, Robert Frost, Alfred lord Tennyson, P.B Shelly, and John Keats are the great lover of nature .All of them used to spend their life living in the lap of nature.

B.A.III (EnglishHons)

R.N.04

VALUE OF ENGLISH

English is a widely spoken language throughout the world, and it has become an essential tool for communication, business, and education. The value of English cannot be overstated, as it has proven to be a language of globalization, diplomacy, and cultural exchange. English is the primary language of international communication, and proficiency in it is crucial for success in a rapidly evolving globalized world.

English has become the language of business, and those who are proficient in it are more likely to succeed in the global economy. In today's interconnected world, English is the language of choice for international trade and commerce, and it is essential for businesses to be able to communicate effectively with customers, partners, and suppliers worldwide. A good command of English opens up new opportunities for businesses, from establishing partnerships with foreign companies to accessing global markets.

English is also the language of education, and it is the medium of instruction in most universities around the world. Proficiency in English is essential for students who wish to pursue higher education abroad. English language skills are a critical factor in academic success, as they enable students to understand lectures, participate in discussions, and write academic papers.

Lastly, English is the language of cultural exchange, and it provides a gateway to diverse cultures and perspectives. English-speaking countries have contributed significantly to global culture, from literature and film to music and fashion. English language proficiency allows individuals to access these cultural treasures and share their own cultural traditions with people from around the world.

In conclusion, the value of English cannot be overstated, as it is a language of globalization, diplomacy, and cultural exchange. Proficiency in English is essential for success in a rapidly evolving globalized world, and it provides individuals with new opportunities for education, business, and personal growth. As the world becomes increasingly interconnected, the importance of English will only continue to grow, making it a valuable language to learn and master.

~Rhythem

R.N. 36

B.A. III (English Hons.)

BRAVE NEW WORLD AS A DYSTOPIAN NOVEL

Aldous Huxley's *Brave New World* is a thought - provoking and influential dystopian novel because it presented a picture of the future world which is extremely gloomy, dismal, depressing and repulsive. Published in 1932 the novel is set in a world where humans are genetically engineered, conditioned to behave in certain ways, and drugged into submission, creating a society devoid of individuality, emotions, and personal relationship.

Through vivid characterization, compelling themes, and a powerful narrative, Huxley's *Brave New World* warns against the dangers of a society that values efficiency and conformity over individuality and free will.

Dystopian novel has following characteristics:

Propaganda is used to control the citizens of society. Information, independent thought, and freedom are restricted. A figurehead or concept is worshipped by the citizens of the society. Citizens are perceived to be under constant surveillance. Citizens have a fear of the outside world. Citizens live in a dehumanized state. The natural world is banished and distrusted. Citizens conform to uniform expectations. Individuality and dissent are bad. The society is an illusion of a perfect Utopian world.

Brave New World consists of all these elements. The characteristics include lack of individuality and conditioning, government control, censorship, removal of emotions and a false sense of happiness show *Brave New World* is a good example of a Dystopian Novel.

~SONIKA

B.A.III ENG. HONS.

SECTION : COMPUTER SCIENCE

BLOCKCHAIN: WHAT IS IT AND HOW IT WORKS?

Blockchain is a type of database. A database is a place where we store our digital data. We have regular databases that store our images, songs and videos on our computers and mobiles. But the computers can be hacked, Right! Even if we keep all our data on cloud storage like Google drive, one drive it can still be hacked. We see a lots of cyber attacks which hacks our bank accounts, social media account even the government servers.

SO, CAN WE SOLVE THIS MESS?

And that's when the researchers came up with brilliant solution known as blockchain. The main aim of the blockchain is to record the data but never to edit it or delete it.

As we know, there are a lot of corruption and black money transactions under the table. There must be a record of all this transaction somewhere but we don't consider it reliable because first, we don't have access to the database and, second, the admin of the database can change the data any time. We will rely on that database which is decentralized (i.e. an interconnected system where no single entity has complete authority) and change in the database is near to impossible.

HOW IT'S POSSIBLE?

A blockchain is share database. Pieces of data are stored in data structures known as blocks, and each block contain : data i.e. relevant information, hash (like a unique fingerprint which generate code) and previous hash. It is very difficult to edit the record in block chain. Every block contains previous hash so it is very difficult to edit the record.

~ Purnima

R.N.1220631015005

ERA OF IT

Life is easy with computer but computer is not easy for life. Computer is the greatest gift and advanced invention of science. Computer is used in almost every field of life. Computer has changed the world at an extraordinary level. That is why this age is called as the era of IT. Computer is such an electronic machine that if we use it properly then we can do everything in the world. It is in our hands that how we use the computer. Computer makes it easier to do a lot of things, but most of the things they make it easier to do don't need to be done. Its disadvantages are as much as its advantages Such as some disadvantages Health issues, online cyber, Virus and Hacking attacks and advantages are speed, Accuracy, produce employment, research etc. Charles Babbage, an English mathematician is considered to be the great grandfather of the computer. Over 150 years ago, in 1840 to be exact, he invented a sophisticated calculating machine and called it the "Analytical Engine" computer science is the science of algorithm problem solving. You can read a thousand books with a click of a mouse.

~PREETI

BCA IST

ROLL NO.1220631011062

COMPUTING TECHNOLOGY

Computing technology has come a long way in the last few decades, and it shows no signs of slowing down. In fact, the pace of innovation is only accelerating, with breakthroughs in areas such as artificial intelligence, quantum computing, and edge computing set to revolutionize the field in the coming years.

One of the most exciting developments in computing is the rise of artificial intelligence (AI). AI systems are becoming increasingly sophisticated, capable of performing complex tasks such as image recognition, natural language processing, and decision-making. This is opening new possibilities in areas such as healthcare, finance, and transportation, where AI-powered solutions can help us make better decisions, improve outcomes, and save lives.

Another area of rapid innovation is quantum computing. Unlike traditional computers that use bits to represent information, quantum computers use qubits, which can exist in multiple states at once. This makes quantum computers ideal for solving certain types of problems that are beyond the capabilities of classical computers. For example, they could be used to optimize complex logistical problems, simulate quantum systems, or crack encryption codes.

Edge computing is also set to become a game-changer in the years ahead. This involves processing data at the edge of the network, rather than sending it all to a centralized cloud server. This can help reduce latency, improve security, and increase efficiency, making it particularly valuable for applications such as autonomous vehicles, smart homes, and industrial automation.

Of course, with all this innovation come new challenges. For example, there are concerns about the ethics of AI, particularly around issues such as bias, privacy, and accountability. There are also concerns about the environmental impact of computing, given the huge amount of energy that is consumed by data centers and other computing infrastructure.

Overall, however, the future of computing looks bright. With breakthroughs in AI, quantum computing, and edge computing, we are on the cusp of a new era of innovation and possibility. The key will be to ensure that we use these technologies in ways that benefit society as a whole, and that we address the challenges that come with them in a responsible and sustainable way.

SECTION : HINDI

मानव तस्करी

आज के समय मे भारत में रेप बलात्कार घरेलू हिंसा आदि जैसी अनेक समस्याएं फैली हुई है। मानव तस्करी भी इन्हीं समस्याओं में से एक प्रमुख समस्या है। किसी मानव को खरीदना - बेचना एवं बंधक बनाकर आजीवन मजदूरी करवाना, उनके शरीर के अंगों को बेचना आदि मानव तस्करी कहलाती है। आज के समय मे लड़कियों व महिलाओं की मानव तस्करी ज्यादातर की जाती है। रिपोर्ट के मुताबिक, देश में 2020 में 4708 लड़कियों व महिलाओं की तस्करी के मामले निकल कर आए व इन 4708 पीडितों में से 2222 नाबालिक लड़कियाँ थी। मानव तस्करी मे लोग लड़कियों को अगवाह करके कोठों पर बेच कर गैरकानूनी तरीकों से पैसे कमाते हैं। इन लोगों का जाल पूरे भारत देश में फैला हुआ है। ऐसे लोगों की वजह से लड़कियों के घरवाले उन्हें घर से बाहर भेजने में भी हिचकिचाते हैं। इस समस्या को खत्म करने के लिए हमारे संविधान में भी कुछ धाराएं हैं। जैसे:

*धारा 366 (ए) और 372 में नाबालिगों के अपहरण और वेश्यावृत्ति में बेचने पर रोक लगाने के लिए दंड का प्रावधान है।

*अनुच्छेद 23(1) और अनैतिक व्यापार रोकथाम अधिनियम, 1956 भारत में मानव तस्करी को गैरकानूनी बताता है। इसी प्रकार अगर लोग अपनी लड़कियों को आत्मरक्षा के लिए कराटे आदि सिखाएंगे तो लड़कियां अपनी रक्षा स्वयं कर पाएगी। आज के समय में टेक्नालॉजी ने भी एक अलग मुकाम हासिल कर लिया है। जिस से माता-पिता लोकेशन ट्रैकर आदिका इस्तेमाल कर के भी अपनी बच्चियों की रक्षा कर सकते है। इस तरह अगर सभी लोग इस समस्या की ओर ध्यान देकर उनके बचाव का प्रबंध करेंगे तो मानव तस्करी पर रोक लगाई जा सकती है।

~Pinki, B.A. Roll No. 1210631002088.

संगती

अकसर हम कई बार ऐसे लोगों के बीच आ जाते हैं जहाँ हम अच्छे और बुरे लोगों में फर्क नहीं समझ पाते। यह जीवन की सबसे बड़ी कठिनाई होती है; ऐसे में कुछ बुरे लोग हमें अपने जैसा बनाने की कोशिश करते हैं और ना खुद आगे बढ़ते हैं और न किसी को आगे बढ़ने देते है।

व्यक्ति की अच्छी संगती से उसके स्वयं का परिवार तो अच्छा होता ही है, साथ ही उसका प्रभाव समाज व राष्ट्र पर भी गहरा पड़ता है। जहाँ अच्छी संगती व्यक्ति को कुछ नया करते रहने के लिए प्रेरणा देती है वहीं बुरी संगती से व्यक्ति गहरे अंधकार में गिर जाता है। अच्छी संगती व्यक्ति का मन शुद्ध करती है। अच्छे दोस्त हमे भी अच्छे काम करके के लिये प्रेरना देते है । हमे ऐसे दोस्तों का साथ कभी नहीं छोड़ना चाहिए। अच्छी संगति से मनुष्य जहां अच्छा बन जाता है, वहीं दूसरी ओर बुरी संगति से वो अपनी जिंदगी खराब कर लेता है। इसलिए हमे बुरी संगत से दूर रहना चाहिए।

मेहनत

रंगीन हो जाती है जिंदगी, जब मेहनत रंग लाती है
 चुप हो जाते है ताने सारे, जब कामयाबी चिल्लाती है
 जीत पर हक सबका है, पर हक लड़ने से मिलता है, शिकायतें सुनाने से नहीं
 वक्त से पहले , वक्त से लडना पडता है
 क्योंकि वक्त बदलता वक्त गवाने से नहीं
 मन मार कर ही सही मेहनत करना अच्छा है
 पूरा दिन बर्बाद कर रात को अफसोस जताने से
 समस्या बड़ी बन जाती है यह बेतुके बहाने बनाने से
 जिंदगी का सफर कैसा होगायह तय होता है
 जवानी के दिनों को संभल कर बिताने से
 बेसक इस वक्त इरादों से हटकर शांति मिले
 पर इस शांति में सुकून ना होगा
 खोखली रहेगी हर चाहत, जब तक संघर्ष का जुनून ना होगा
 मेहनत से अगर भागते रहे तो महज आत्मविश्वास चूर होगा
 खुद से लड़कर अगर खेल गए तो हार कर भी जिद पर गुर्रर होगा

NEGOITABLE INSTRUMENT

Promissary note:- promissary note is an instrument but it is not a bank note, this instrument is in writing which is signed by the maker to pay a certain amount of money in order to a certain person. There are two parties in promissary note named as maker and payee. A maker is the debtor who makes promise to pay a certain amount of money before expiry of the duration and payee is the creditor in whose favour of promissary note is made.

Bill of Exchange:- Bill of exchnage is an instrument which is in writing and it is an unconditional order which is isigned by the maker for a certain person to pay a specific amount of money. It consists of three parties named as drawer, drawee and payee. There are two types of bill of exchange named as inland bill and foreign bill.

Inland bill is one which is drawn in the same country to the businessman. The drawer and the acceptor are of same country. Foreign bill is one which is drawn in the different country to the businessman. The drawer and the acceptor are of different countries.

Cheque: - it is a bil of exchnage which is drawn by the banker and not expressed to be payable.

Usances:- when the payment of bill drawn in one country and payable in another country in the time fixed by the countries. This time duration is different in every country.

Ambiguous instrument: - when the instrument is drawn in such a manner that it can be classified as a bill of exchange or a promissary note as per the holder. This depends on the holder that is considering it as a bill of exchnage or a promissary note is called as ambiguous instrument.

Maturity: it is a date on which negotiable instrument is payable. Maturity refers to a date on which the same instrument is payable. Maturity instrument are of two types named as payable on demand and payable on specified period.

INDIA'S JOURNEY OF DEVELOPMENT

Time to remove the vestiges of colonialism,
 India seeking to go ahead with feminism,
 Women are the blood, running in veins of nation,
 NariShakti Mahila Ek-Hath, a manifold contribution.

When India got seized in shortage of grain,
 It hardened the lives, gives a lot of pain,
 India felt need of leveling up the production,
 And aiming the global leader with Agri. nation.
 Aiming to be world's manufacturing company,
 Atal innovation mission launched to accompany,
 Learning Youth working to build powerful Nation,
 'Atal' enhancing their skills in isolation.

The day, When Virus touched our heart pulse,
 Scientists made us sure; we won't rely on anyone else,
 All their efforts focussed on pandemic's solution,
 India fought strongly as an Independent nation.

India chose the weapon bold of self Reliance,
 "Made in India" formula in making of every appliance,
 One Day, PM proudly announced to the citizen,
 Aatma Nirbhar Bharat, key to development in precision.

Zero Poverty, Zero unemployment,
 Zero unskilled labour and more GDP Development,
 Developing to Developed now journey of nation,
 India will surely develop along with its Tradition.

Will become that Golden Sparrow, once again,
Will eradicate word 'Developing' from its name,
Developing to Developed, now the journey of nation,
India will surely develop along with its Tradition.

TRANSPORTATION ROLE IN INDIAN ECONOMY

There is no doubt that transportation plays a vital role in all business activities and these business activities are directly linked with the economy. All activities relating to sales and purchases are done through transportation. Public transportation have a great value in common life as well as for government. As government generates exercise taxes such as motor fuel tax and aviation tax from these transportation. Primarily government generates 67% proportion from public transportation but when the lockdown was imposed by government income proportion was declined with 47%. This was the huge loss in the economy. Also charges relating to tolls and public vehicles license fee etc. But as soon as the government imposed lock down than our whole economy gone imbalanced. Let's exemplifying this,

Indian Railways has shuttered a loss of Rs.6,500 crore on revenue earned from tickets sale (during the first lock down). According to an estimate by rating agency ICRA, toll collections for financial year 2021 would decrease in stage of 6.5 % to 8% in financial year 2021. But now our government is making a lot of efforts to overcome the loss from transportation by applying social distancing in buses and rails and also our authorities allowing people to travel in public vehicles after wearing masks and also by providing sanitation facilities in public transportations.

FLY WITH YOUR DREAMS

Go down a thousand times but stand up at one thousand one,

Chase thy dreams they know the way to get you done,

Dreams are not what you see in the down sleep,

These are the things that don't let you sleep.

No matter where you were born which color of your skin,

Matter's what are your dream and your efforts in kin,

Doesn't matter how difficult the path is, how bad your condition is,

Path still leads to destination and you're still strong as your spirit is.

Look shortly why you are here? You are a dreamer,

And every time when you believe oh! You turn into a believer,

Never let your pain turns your spirit to a dove,
You're made to fly high like eagle up all above.
Open your wings and fly towards tragic sky,
You have to live your dream even if it is high,
Sail through impossibilities, till it'll get possible,
Always remember impossible itself says I am possible.

And finally let your dreams take you away,
Into the world, the world of alluring things, I say
Dark thoughts residing in your coward mind,
It's a perfect moment to get them out in kind.
When your dreams are keeping you awake,
The miracle you had decided to make,
Start living in your dreams and after an eve,
Good things will come to you I truly believe.

If you fall, you must know how to land,
When you defeat, you should know how to stand,
You have to live a life, a life of your dream,
Oh! My Friend, fly with your dreams.

Fly with your dreams.

Live your life with a dreams, Take flight with your dreams.

AMBITIONS

Ambition is a strong desire to do something, even face a hard work. Ambition is the important part what you want in your life. With ambition, you can be to see your vision and figure out how you are going to make it a reality. Most of students consider themselves as ambitious person. In general, the students estimate the level of ambition high or average. We all have ambitions when we title, which change as we grow up. Ambition leads us to a defination aim in your life. It helps to achieve our goal no matter of cost. It motivates us to better in your life. One reason many people fail to achieve their goal is because of the hard work involved. But ambition come in your again with full force it doesn't matter what they take it. Ambition is not easy to achieve, it faces a lot of challenges and problem. My ambition is my life in bank manger till my childhood and to operate the full bank systemtically. I am looking to join the bank with internal growth and oppportunity. They are what you hope to achieve in your professional life in the years to come.

Some students have no proper guidelines to achieve their ambition. And some do not clear about their ambition. First, it is necessary to clear their ambition and take proper guideness to achieve them. This problem can solve when they think about what they love to and what you must in your life. Life ambition is many types like buy house, financial support to their families etc. In short, ambition is very important in your life and it makes our life very beautiful and meaningfull. It is very necessary for the person to think about ambition and tried hard to achieve it.

B.COM.III

प्रकृति है सुंदर वरदान

प्रकृति है सुंदर वरदान, मानव है इससे अनजान

करता रहता है इसकी सुंदरता का नुकसान,

प्रकृति कितनी सुंदर। इसमें तत्व है विद्यमान

प्लास्टिक बनाकर करता स्वयं का नुकसान

लेकिन आज हो रहा है इसका हास

प्रकृति ना केवल है वरदान

यह तो है हम पर, भगवान का एक सुंदर अहसान

मानव ने किया बहुत प्रयास प्रकृति को लेकर भी
तकनीके तो बढ़ा दी.पर कर दिया प्रकृति का नुकसान

जब-जब प्रकृति पर संकट आया

प्राकृतिक आपदाओं ने मनुष्य को समझाया

जब-जब विकसित हुआ ये जमाना

मनुष्य को मिला एक नया सिरहाना

प्रकृति को किया है नष्ट अपने ऐसो आरान के लिए

सर्वप्रथम है पेड़ों को काटा

औद्योगिकरण को बढ़ाकर,हवाँ को है नापा

ये देश ये राष्ट्र बन जाएँ,

तकनीकी अर्थव्यवस्था को बढ़ाकर समृद्धि छा जाए।

परंतु ऐसा रास्ता अपनाएं प्रकृति को भी बचा लिया जाए

चाहे अर्थव्यवस्था अच्छी हो,

ये इसान चाहे तकनीकी को बना जाएँ,

परंतु इसने प्रकृति को भी कई नुकसान पहुंचाएं

समृद्धता बढ़ाए, परंतु प्राण घटाएँ।

आज भी प्रकृति मानव को समझा रही हैं,

उसकी गलतियां, उसको समझा रही है

बिन मौसम के हुई बारिस

किसानों की फसल हुई खराब

जनसंख्या बढ़ी, आवास चाहिए

पेड़ों को काटा पर अब स्वच्छ हवा चाहिए

मानवता घटी पर इन्हें छाया भी चाहिए

घर से लेकर घर तक सीमित नहीं,

जीवन बढ़ाना है और जीवन चाहिए प्रतिज्ञा ली जाएं,
 एक घर बनाकर चार पेड़ लगाए जाए
 एक उद्योग स्थापित कर, कचरा नदियों में न बहाया जाए
 किसान का हताश होना खबरें न बताएं
 इसलिए, प्रकृति को सवार कर ही समृद्ध राष्ट्र बनाया जाए
 आओ हम सब बनाएं
 कर जहरीली गैसों से मुक्त एक सभ्य वातावरण,
 एक सभ्य वर्तमान
 प्रकृति ने ही तो बनाया है
 ये इसान इसको करना तो पड़ेगा यहीं पर
 अपने कर्मों का भुगतान
 बनाकर इसे स्वस्व व सुंदर
 तुम सवारोगे अपनों का भविष्य
 और बालों खुद का वर्तमान ।
 बचालों स्वयं का वर्तमान ।

आज फिर से लिखने का मन हो गया

आज फिर से लिखने का मन हो गया
 कल्पनाओं से हकीकत तक कागज को अपनाया
 अरे यारों देखो नया साल आया नया साल आया
 सपनों से हकीकत रास्तों से उमंग

यह साल होगा बिल्कुल दबंग

Feelings in words,

Few moments before New year.

२०२२ जा रहा है जा रहा है

कुछ कुछ समझा रहा है

कितने तो जाने से पहले समझ गए

कितनों को अब समझा रहा है

शायद कुछ कुछ हमें भी समझ आया है

दुनिया कैसे कितनी सुखद कितनी दुखद

कैसी मोह माया है

हमने तो ऐसे ही निकाल दिया

सपने सजाए पर विचार पर ही समय खो दिया

अब पता चला उम्र का 1 साल कम कर दिया

यह सिर्फ मेरी नहीं ना जाने कितनों की आदत है

सिर्फ 5 मिनट पर खड़ी इबादत है

आज नहीं तो कल कल नहीं तो परसों आदत है

मंजिले रास्ते दोस्त तथा यार

सबका साथ सबका प्यार हर एक की चर्चा

साल में कितना क्या खर्चा

Everybody excited for new year

कितनों ने जुटाई खुशियां किसी तो गम ना

खत्म हुए और अचंभित

चेहरे पर खुशी पर अंदर से चिंतित

खुशियों की नई लहर थी यह साल

महामारी से बाहर निकलने में हुआ था बेमिसाल

माना फिर से दस्तक दी पर

साल अपने साथ ले जाने की दी मिसाल
 सतर्कता पर साल का न जोर चला
 क्योंकि यह इंसानों से बंधा ब
 इंसानों के वास्ते खुद को कमजोर तुला
 हर एक नया सवेरा नया महत्व नया काम
 कैसे निपटाए कल का भी तो छोड़ा था,आज के नाम
 कितनी नई जिंदगी जन्मी कितनों ने गवाही प्राण
 याद नहीं अग्नि वीर का महासंग्राम
 युद्ध से भी पीछा ना छूटे आखिर साल भी टूटता सा तारा
 निजीकरण उदारीकरण का विस्तार
 वैश्वीकरण में जीवन का भी अपने को अधिकार
 क्या सरकार क्यों सरकार, मन में सवालों की बारंबार
 पर मन से पूछो क्या तू नहीं था इससे इकरार
 बस कुछ क्षण और उदय होगा एक नया भोर
 आखरी दिन सभी बुरी आदतों के लिए
 अत्याचार सहने वालों के लिए
 क्योंकि नया साल नया ही नहीं
 सपनों से भरा है ऐसे ही तो दिखा है
 पीछे के आईने की बुराई को खत्म कर दे
 मौकों की तलाश नहीं जीवन को मोको से भर दे
 मंजिलों से शुरू सफलता पर खत्म
 ऐसे मत कर अपनों का साथ जीवन में
 सकारात्मकता वह खुद से विश्वास तब मंजिलों से भेद दें
 पुराना साल गया
 नया आते ही नहीं तो पुराना अभी पुराना नहीं था

अभी तो इतने दिन बाकी है
 समय कैसे बीता किसी को पता नहीं था
 नए साल के लिए नया सा शोर
 धूम धड़ाका मन में मचा
 जीवन के लिए कुछ तो रचा
 कोशिश से आदतों को छोड़ जो छोड़ने लायक है
 बना जो बनाने लायक है
 हकीकत से सामना करने का समय अभी है
 तेरे पास सपने तो बना लिए सपनों से ना सोने का एहसास भी है तेरे पास

No 5 minutes before any work

समय पर काम only समय पर काम
 नई साल की शुभकामनाओं की बारी
 इस साल एक-एक की बारी
 मान ले सपनों को उड़ेल दे
 खुशियां बटोर दे, खुश रहे खुश रख
 और नए साल की शुभकामनाओं का ढेर दे, ढेर दे

सुबह सुबह बस के धक्के खाने थे

सुनो दोस्तों कॉलेज लाइफ के लिए अपने फसाने थे
 वो बस की लास्ट सीट 2 मिनट में भर देते थे
 मानो पुरी बस में हम ही पैसे देते थे
 कोशिश करने पर भी टैक्स और अकाउंट नहीं समझ आया
 लेक्चर बंक करते-करते इन्ही सब्जेक्ट मे री आई

लेक्चर बंद करके एक-दूसरे के लंच खाने थे
सुनो दोस्तों कॉलेज लाइफ के अपने भी फसाने थे
स्कूल के बाद कॉलेज भी हमारा दिल जीत गया
पता नहीं समय के साथ-साथ कब फर्स्ट ईयर बीत गया
2nd ईयर आने पर दोस्तों पर तो इतना मरते थे
वह भी समय था जब टीचर के पास खड़ा होने पर पढ़ने की एक्टिंग करते थे
धीरे-धीरे सारे सेमेस्टर ऐसे ही चले जाएंगे
यह कॉलेज के दिन बाद में बड़े याद आएंगे
एग्जाम टाइम में हर स्टूडेंट है भगवान बस पास करा दे
और हम ना पास हो तो मेरे दोस्तों का नाश करा दे
स्कूल की तरह एक दिन कॉलेज भी बीत जाएगा
उस समय मुझे मेरा खास दोस्त बहुत याद आया
फाइनल ईयर की होली में दोस्तों के मुंह हर तरह के रंग से चसाने थे
सुनो दोस्तों कॉलेज लाइफ के भी अपने फसाने थे

Economics: A Review

Human being is a social animal. He cannot live without his family and this family does have lots of desires, wants and wishes. Economics relates to use of scarce resources in a manner such that the individuals maximize their economic gain at the micro level and society maximizes its welfare at the macro level. Means are always scarce in relation to our wants. As we know economy is the reality of life for our survival in every sphere of life. This gives a brief importance of economics to us. We want money for survival and economy refers to organization through which people earn their living. Economics as a subject matter deals with the economic problem that occur in our day to day lives what to produce, how to produce, and for whom to produce etc.

To solve such issues every country has its own type of economy. It includes socialist, capitalist, and mixed economy. India has mixed economy structure where the economic activities are governed by the free play of market forces but are regulated by the government. India is a developing country but it is all set to move towards '**Inclusive Growth**' which means economic growth with distribution. Because between 1950-51 to 2016-17 annual rate of increase per capita income was about 3%. India is ranked in term of per capita income at 78th in all the nations of the world. As per WDR 2017, in India the poorest 10% gets only 3.6% national income and richest 10% enjoys 29.8%. But through proper planning the scenario is changing India is becoming one of the fastest growing economy. As now the strategy to acquire inclusive growth is efficient it includes reforms in agriculture, development of industries, and development of infrastructure with employment generation and so on.

Adam Smith, the father of economics, himself said, "It is not by gold or by silver, but by labour, that all wealth of the world was originally purchased". This shows the development of human from the grassroots.

INFLATION

Inflation is a term used to describe the rate at which the general price level of goods and services in an economy is increasing over time. When inflation occurs purchasing power of an economy decreases. Some inflation is considered healthy for an economy. It is measured through consumer price Index (CPI) and Wholesale price Index (WPI). In recent years India experience fluctuating inflation rate. India inflation rate stood at 5.52% which higher than the target of Reserve bank of India which is 4%. The rise in inflation can be attributed to various factors such as rising fuels prices, food prices etc. The main reason for this high inflation rate is COVID pandemic.

The RBI is responsible for price stability in India. The RBI is trying to strike a balance between inflation and economic growth by its various monetary policies. The RBI raises the interest rates to reduce the money supply in the economy, which can help reduce inflation. In conclusion, inflation is an important economic concern in India while the RBI has implemented various measures to control inflation there is a need for comprehensive policy framework.

HARYANA, AND IT'S HARYANVI.

Brahomoudeasa Bhrahmavarta Aryavarta, it's ancient name,
 Got the name of Abode of God, Haryana finally got it's Fame,
 Stated as the state in the month of November in 1966,
 Declared as a renowned state after many conflicts.
 Sultanpur National park embracing the Beauty beautiful,
 With melody of birds and their sweet songs colourful,
 Kalesar roaring courageously with leopard's charm,
 Beauty resides here in forests without any harm.
 When it comes on style of living, it's straightforward,
 Simplicity ran in their veins, along with blood,
 Chapati with kachri ki chatni is the simple thing eaten here,
 Rajasthan and Punjab can be felt easily here.
 Dhoti Kurta with a pagri figuring the male bloodline,
 Females dancing in their Daman Kurta with a bright shine,
 Morning brings the positive vibes for life of agriculture,
 Evening ends the songs of fields but never it's glorious culture.
 Milk and milk products, are beauty for the haryanavi food,
 Can smell fragrance by the kheer and the taste good,
 Streets are filled with aroma of jaggery & its sweetness,
 Childhood filled with sarson and it's yellowness.
 Swings swinging hard in happiness and joy,
 Children dancing in their fun and fest ahoy!
 Teej festival swings in the month of sawan,
 Along with Monsoon rains & all ends with man bhavaan.
 Land of Kurukshetra famous for its war of trust,

Truthfulness can be felt in sand of Kurukshetra's crust,
Battles of Panipat showed the Courage,
That no one can rule anyone in any kind of stage.

SECTION : SCIENCE & MATHEMATICS

WHAT IS SCIENCE

What is science, science is all about thinking, understanding and implementing in our lives science means to know or having curiosity to know about what is happening around science play and important role in our daily life as our day starts from sun rises this is science and ends with sunset this is science from the last year science and technology is developing and make other things also progressive for example our national research centre ISRO has make us feel proud on many projects like mission mangal ,Earth observation ,satellite etc science has increased our imagination process thinking capacity and working capability as many years ago people use to work so hard in offices or factories but now due to increasing technology all men efforts has shifted to machine computers and smartphones learning and creativity is increased due to science and technology as now a day the way of teaching and learning has improved from past learning method by using smart classes or digital learning in schools and homes science play an important role everywhere like in defence area, medical field ,research centre,

Agriculture industries, extraction of metals, refining of petroleum, all these things are under science there are some major achievements of science like their is 100% electrification of rail network in UP and Uttarakhand our food industry show a large progress as now food like daily products milk ,cheese ,curd, fried item had stored for many days due to food preservation and this is because of science in our country Shanti swara Bhatnagar award was one of the highest award in the field of science and technology

NEW TECHNOLOGY IN THE FIELD OF NUCLEAR PHYSICS

As we all know in this era of science, scientists are doing continuous efforts to discover new technologies to make the life of common people easy. In the continuation of this thought, Physicist in Japan recently discovered a new isotope of Uranium with atomic number 92 and mass number 241.

About: The researchers accelerated uranium 238 nuclei into plutonium 198 nuclei at the KEK Isotope Separation System. In a process called multi-nucleon transfer, the two isotopes exchanged protons and neutrons. The team used time of flight mass spectroscopy to measure the mass of each nucleus. The resulting nuclear fragments contained different isotopes.

Findings: It was identified as uranium -241 and measured the mass of its nucleus. Theoretical calculation suggests that this new isotope could have a half-life of 40 minutes. This discovery is the first of its kind since 1979 due to the extreme difficulty of synthesizing a nuclide in this region by general action.

Importance: This finding is significant in refining our understanding of nuclear physics and has implications in designing nuclear power plants and models of exploding stars. Measuring the mass of Uranium and its neighbourhood elements yields essential nuclear information to understand the synthesis of such heavy elements in explosive astronomical events.

Further Implications: This new approach using multi nucleon transfer reaction is expected to lead to the discovery of more neutron rich actinide nuclides, elucidating the stability of nuclides and the process of astronomical nucleosynthesis.

जीवन एक अंकगणित है

जीवन एक अंकगणित है, इसे बनाना पड़ता है,
 सांसे घटती है अनुभव जुड़ते है।।
 रेखाओं में खिंची है, मेरी उम्र तमाम,
 जीवन एक वृत्त है, खुशी इसका केंद्र बिन्दु है ।।
 चलती नहीं कभी संमातर ऊँच-नीच हो जाती है।
 बड़ी-बड़ी समीकरणों को पल में कर देता है आसान।।
 कभी करते है गुणा तो भाग भी करना पड़ता है,
 जीवन के इस अंकगणित को हल भी करना पड़ता है।।

गणित

गणित एक ऐसा विषय है जिसका नाम सुनते ही बच्चों के दिमाग में एक डर दौड़ जाता है। बच्चे इसे बोझ समझते है। यह धारणा बनी है कि गणित एक जटिल विषय है और यह समझ से परे है। ये भाव या विचार बच्चों के दिमाग में बचपन से ढाले जाते है। गणित विषय के लिए हमारे पूर्वज बड़े रोचक ढंग से भावमय भावना प्रस्तुत कर पाठ का शुभारंभ करते थे।

बिना पढ़ा लिखा व्यक्ति भी मौखिक ही अपने सारे हिसाब-किताब कर लेता था। पहले की घरेलु महिलाएं हो या खेतों में काम करने वाली महिलाएँ भी हर तरह की गणना उंगुलियों पर कर लेती थी लेकिन आज के दौर में यह सब अंसभव होता जा रहा है। आधुनिक युग का मनुष्य दो और दो को गुणा करने के लिए कैलकुलेटर का प्रयोग करता है।

विश्व के प्रसिद्ध भौतिक शास्त्री आइस्टीन को भी गणित से बचपन में बहुत डर लगता था। उनसे एक बार एक लड़के ने पूछा कि आज सारी दुनिया में आपका नाम है।...

बेटी की पुकार

माँ मुझे मत मार, मैं तो एक नन्हीं-सी परी हूँ।
 आने दे माँ मुझे इस दुनियाँ में और देख लेने दो येसंसार।
 माँ मैं तो एक लक्ष्मी का रूप हूँ,
 मेरे आने से घर झूम उठेगा खुषियों से।
 माँ मैं तो एक फूल-सी कोमल बच्ची हूँ,
 मेरे आने से हो जाएगा ये जग सुनहरा और
 हो जाऊगी मैं धन्य तेरी कोख से जन्म लेकर।
 माँ मैं आकर इस दुनियाँ में बन जाऊगी तेरा सहारा
 पिता की शान बढ़ाऊगी।
 भाई का रखूंगी मान और कर दूँगी जग में रोशन नाम,
 मैं भी इस दुनियाँ में आकर श्रुति शर्मा,
 सुनीता विलियम्स की तरह अपना नाम कमाऊगी,
 माँ तेरी ममता न्यारी है, इस जग में सबसे प्यारी हैं,
 आ जाने दो मुझे इस दुनियाँ में और देख लेने दो ये संसार।

नारी

नारी है धरती का अद्भुत इंसान,
 करती है जो सबका इंसान।
 दुख में साथी, सुख में रहती है दूर,
 क्यों करते हो तुम इसे इतना मजबूर।
 ना अबला, ना बेचारी है, अब यह आधुनिक नारी है।
 नारी ही परिवार की आन-बान-षान है,
 इसी से ही तो एक सुखी परिवार की पहचान है।
 नारी का अपमान, मतलब ईश्वर का अपमान है,
 हे मूर्ख मनुष्य! नारी ही हमारे जीवन का मूल आधार है।
 नारी है अपने हक की अधिकारी,
 क्यों है तुम्हें उसे प्रताड़ित करने की बीमारी।

दुनिया के फरेब और जद्दोजहद में

मुझे एक सुकून चाहिए माँ के लिए कुछ कर गुजरू

इस बात का जुनून चाहिए।

इस कायनात में माँ,

खुदा का दिया हुआ एक अद्भुत नूर है

हम कितने भी खफा हो जाएँ, अपनी माँ से लेकिन दर्द में एक आह माँ की निकलती जरूर है।

हमारे हर छोटे से छोटे दर्द में उसकी आँखें बहती हैं

वो बच्चों का पेट पालने के लिए

न जाने कितना कुछ सहती है।

हर शब्द, हर अल्फाज कम से पड़ जाते हैं

जब माँ शब्द की बारी आती है।

वो अपनी सारी ख्वाहिषों को हम पर

यूँ कुर्बान कर देती है

हम सोये चैन से वो बेचैन रहती है।

हर मंदिर, हर मस्जिद में

वो भगवान को पाने की ख्वाहिष करते हैं।

लेकिन जो माँ-बाप उनकी हर फरमाइष को पूरा करते हैं

उन्हीं के बाद में वो नुमाइष करते हैं।

मां: भगवान का दूसरा रूप

खुदा हर जगह मौजूद नहीं रह सकता था.....

इसीलिए उसने मां बनाई

सैकड़ों बार सुनी है यह कहानी

लेकिन आगे की कहानी किसी ने नहीं सुनाई.....

आज मैं सुनाती हूं.....

ऐसा नहीं कि मां को बनाकर खुदा बहुत खुष हुआ या उसने कोई जष्ण मनाया.....

सच तो यह है कि वह बहुत पछताया.....

कब उसका एक-एक जादू किसी और ने चुरा लिया वह जान भी नहीं पाया.....

खुदा का काम था मोहब्बत, वो मां करने लगी.....

खुदा का काम था हिफाजत, वो मां करने लगी.....

खुदा का काम था बरकत, वो मां करने लगी.....

देखते ही देखते उसकी आंखों के सामने कोई और परवरदिगार हो गया.....

वो बहुत मायूस हुआ, बहुत पछताया

क्योेँकि मां को बनाकर खुदा बेरोजगार हो गया।

नारी की व्यथा

ऐ नारी, तु क्यों हैं इतनी बेचारी
 दुनिया ने तुझ पे अत्याचार किए, फिर भी तुने सब्र के घुट पिए
 क्यों तुने इतने अपमान सहे, उठ, लड मत सह ये अत्याचार
 झुका दो बुरी निगाहों को, फोड दे सिर गुस्ताखों का
 मत सह अत्याचार, मत कर आश्वासन, दुनिया की झुठी बातों का।
 गलत सहना छोड़ दे, समाज की गलत देन को तोड़ दे,
 कुत्तों के भौंकने को मत मानों तु सही,
 जो तुम कह दो और करो, वही है सही
 तुम्हारी जीत से जलता है जमाना अगर,
 तो तुम बना लो खुद को सुनामी वाला सागर,
 चलाना सीख शस्त्र को, अपने कोमल शरीर को तोप का गोला बना
 और इस घिनौने समाज को दे तू झुका।
 मत रो उस अपराध पर जो तेरा है नहीं
 मत हो खिन्न मन से तेरा अपमान संभव है नहीं
 समाज के पाप का बोझ तू क्यों है उठाती,
 भुगतेगे ये सभी जो आज होते है उत्पति।
 बंधन नारी पर लगा, ये नहीं सकते तुझे बचा।
 अपनी रक्षा की इन्हें मत तू पुकार लगा।
 अपनी इज्जत तू खुद बचा, बनकर वीरांगना इन्हें दे सबक सिखा।
 बनकर दुर्गा कर पापियों का सहार, ताकि ये ना कर पाए, नारी का अपमान।

वास्तव में शिक्षा की देवी कौन?

विद्यालय में प्रवेश लेने के उपरान्त ही ज्ञान की देवी सरस्वती पढ़ने को मिला। जब भी विद्यालय में कोई भी समारोह होता तो सबसे पहले मां सरस्वती की प्रतिमा पर पुष्प अर्पित करके कार्यक्रम की शुरुआत की जाती रही है। जैसे-जैसे मैं बड़ी हुई तो मेरे मन में मां सरस्वती के जीवन तथा कार्यों से संबंधित विचार उत्पन्न हुए कि आखिर उनकी ही प्रतिमा को शिक्षा क्षेत्र के साथ क्यों जोड़ा जाता है? परंतु मुझे सिर्फ यह जानने को मिला कि वह शिक्षा की देवी है इसीलिए। लेकिन जब मैंने उनके बारे में विस्तृत जानकारी लेनी चाही तो मुझे किसी भी पुस्तक में या किसी भी इन्सान के द्वारा कोई ऐसी जानकारी नहीं मिली जिससे मुझे संतुष्टि मिले। शिक्षा क्या है ? शिक्षा वही है जिससे मनुष्य की बुद्धि का विकास होता है। पहले भारत में महिलाओं को शिक्षा का अधिकार नहीं था। आखिर उन्हें यह अधिकार किसने दिलाया...

आज डिजिटल युग चल रहा है। जब मैंने गूगल बाबा से भारत प्रथम महिला शिक्षिका पूछा तथा विभिन्न पुस्तकों से भी जानकारी ली, तो मुझे माता सावित्रीबाई फुले जी के बारे में पता चला और यह भी पता चला कि उन्हें महिलाओं को शिक्षित कराने के लिए बहुत कष्ट झेलने पड़े, क्योंकि उस समय महिलाओं का शिक्षा प्राप्त करना अनुचित समझा जाता था। पहले सावित्रीबाई फुले खुद अनपढ़ थी। उनकी कम उम्र में ही शादी हो गई थी तथा शादी के बाद उनके पति ज्योतिराव फुले जी ने उन्हें घर पर ही पढ़ाया। उनका समाज ने विरोध किया तथा घर से बाहर निकाल दिया लेकिन उन्होंने हार नहीं मानी तथा सबसे पहले सन् 1848 में महिलाओं के लिए विद्यालय खोलकर शिक्षा की देवी बनी। आज सावित्रीबाई फुले की बदौलत ही महिलाओं को शिक्षा की न्यायपूर्ण व्यवस्था प्राप्त हुई है। उनके महान प्रयासों को देखकर उन्हें शिक्षा की देवी कहना अनुचित नहीं होगा। आपको नहीं लगता कि सावित्रीबाई फुले जी के अथक प्रयासों को देखते हुए प्रत्येक समारोह में मां सरस्वती के साथ माता सावित्रीबाई फुले जी की प्रतिमा लगाकर मान सम्मान देना उचित होगा! आपकी क्या राय है??

MY MOTHER

To the women that loved me long before I was even born

To the women that had my heart long before it was formed

To the women that sacrificed her body just to keep me warm

And even though it was hard, she still hoped and prayed to God.

That it will all be worth it in nine months when she finally delivers her baby girl

And it was love at first sight the second she saw me

Wrapped me in her arms and kissed my cheeks.

Promised herself that I will be her responsibility forever

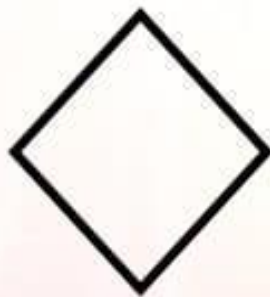

See, she is the kind that would go hungry to make sure that I eat

She would wake up before sunrise to walk miles just for me.
